Subject.

Education Navunda Fisheries school -- Building - construction - Part II scheme - 1933-34.

Copy of letter No.5077-F/31 dated 4-10-1932 from the Assistant Director (Coast), Calicut.

Education - Navunda Fisheries school - building - construction of - Part II Scheme - proposal.

In granting recognition to the first four classes of ~~Ka~~ Navunda Fisheries school, the District Educational Council laid down that a more suitable building should be provided for the school. When this point was referred to the Inspector of Fisheries, Mangalore, he reported that even though the present building owner is willing to extend the school on an assurance of a reasonable rent, it would be better to construct a building of our own in a Government land available in the vicinity - vide copy of his report No.559/31 dated 31-7-32 enclosed. On receipt of this report, I addressed the Collector of South Kanara to place one acre of land referred to in the Inspector's report at the disposal of Fisheries Department for locating the school. He has done this - vide copy of his proceedings D.Dis.7265-32 dated 28-9-32 enclosed. I enclose an estimate for Rs.850/- for constructing a semi pucca building on the land and recommend that the proposal may be included as a part II Scheme proposal for 1933-34.

Copy of letter No.559/31 dated 31-7-32 from the Inspector of Fisheries, Mangalore.

The kutcha shed in which the Navunda Fisheries School is now housed is a private building inside a cocoanut tope on the western side of the high road between Coondapoor and Byndoor. Unless some of the cocoanut trees are removed, there is no room for extension of the school shed on the site. The owner

of the shed is willing to do so, provided a reasonable rent is promised to him. But I consider that it is always good to have a Government building for the school.

Only about a furlong to the east of the existing school site there is a plot of Government unassigned land in S.No.193 of Navunda village on the eastern side of the high road measuring about 10 acres. This plot I understand is reserved by the Labour department for future use of the depressed classes.

I request that you will be good enough to address the Labour department with a view to alienate about an acre of land from this land for the school site. This seems to be a suitable site for the school building. No other Government land is available for the school site in the neighbourhood.

Copy of South Kanara Collector's Proceedings D.Dis. 7265-32 dated 28-9-32.

S.No.193/2A of Navunda village measuring one acre is excluded from reservation for the depressed classes and will be placed at the disposal of the Fisheries Department for constructing a building for the Fisheries school.

2. The sub-division records are returned herewith sanctioned.

3. The Tahsildar of Coondapoor is requested to hand over the plot to the Fisheries Department.
